

Omeotoxnoni

Respiratory system support

Omeotoxnoni

FOOD SUPPLEMENT

Description

Omeotoxnoni is a groundbreaking Food Supplement with plant extracts that have been defined as "herbal adaptogens". The herbal adaptogens strengthen the immune system without bringing about any negative side effects.

Omeotoxnoni consists of two main nuclei of ingredients:

1st nucleus: contains a mix of plant extracts, selected according to their synergistic and complementary action:

- Anti-inflammatory
- Mucolytic and helping to regulate the mucous secretion
- Expectorant
- Spasmolytic and bronchodilating
- Emollient and soothing

2nd nucleus: represents the actual nucleus of **Omeotoxnoni**. This product contains a high amount of juice of *Morinda citrifolia* (**Noni**), original from Tahiti, and commonly used to prevent and cure various diseases.

Recent scientific studies have shown its strong immunostimulant action against the most common pathogens (*bacteria, viruses, fungi*) as well as against chemical toxins (*smoking, pollution, free radicals*).

Key words:

Respiratory system support

■ Indications

Omeotoxnoni is a food supplement with Noni, plant extracts and Propolis. Yellow startwort, Corn poppy, Common mallow and Cowslip are useful to make bronchial secretions fluid. Maidenhair fern, Curry bush and Licorice contribute to the wellbeing of nose and throat. Great valley gumweed, Round-leaf sundew and English plantain exert an emollient and soothing action.

■ How to use

- **Bottle:** 1 dosing cap (10 ml) 2-3 times daily.
- **Sachet:** the recommended daily intake is one sachet 2-3 times daily. Dissolve the contents of one sachet into a glass of water, even lukewarm.

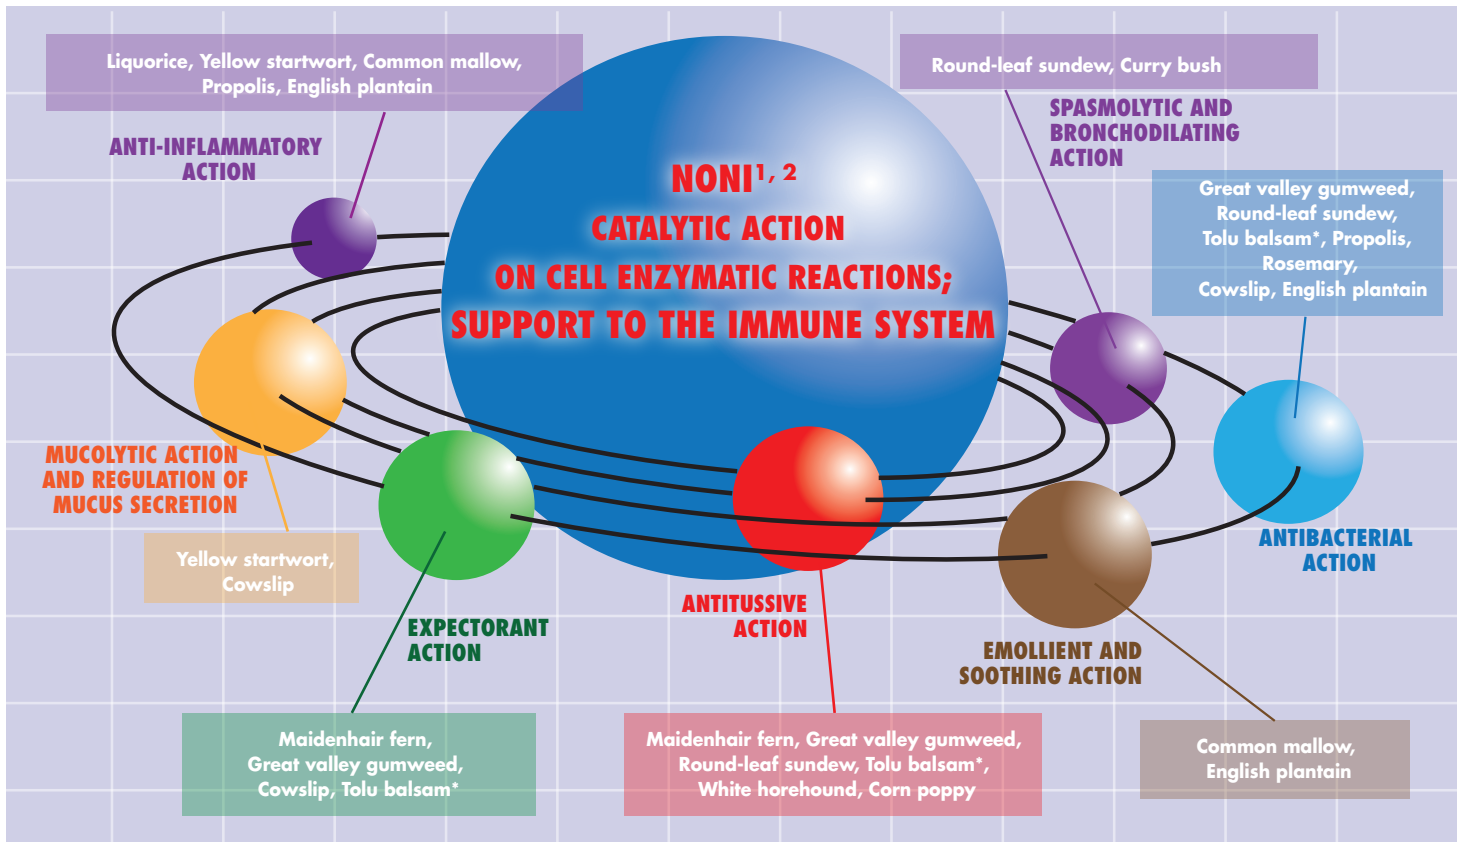

■ Warnings

Do not exceed the stated recommended daily intake. Keep out of reach of young children. Store in a cool, dry place, and protect from light. The expiry date refers to a product correctly stored, in its original and undamaged packaging. Food supplements should not be used as a substitute for a varied diet and a healthy lifestyle.

■ Packaging

- 150 ml bottle with dosing cap
- Box of 16 x 4.5 g sachets.

Omeotoxnoni

*Tolu balsam: included only in the liquid dosage form

Ingredients

• **Bottle:** Water, Noni (*Morinda citrifolia* L.) juice, Fructose, Yellow startwort (*Inula helenium* L.) root and rhizome, Common mallow (*Malva sylvestris* L.) leaves, Corn poppy (*Papaver rhoeas* L.) flowers, Rosemary (*Rosmarinus officinalis* L.) young shoots, Tolu balsam (*Myroxylon balsamum* L. Harms var. *balsamum*), English plantain (*Plantago major* L.) leaves, Great valley gumweed (*Grindelia robusta* Nutt.) herb and flowers, Cowslip (*Primula veris* L.) root and rhizome, Maidenhair Fern (*Adiantum capillus-veneris* L.) herb, Round-leaf sundew (*Drosera rotundifolia* L.) herb and flowers, Liquorice (*Glycyrrhiza glabra* L.) root, Curry bush (*Helichrysum Stoechas* Moench.) tops, White horehound (*Marrubium vulgare* L.) herb and flowers, Thickening agent: hydroxypropyl methylcellulose, Propolis (*Propolis*), Preservatives: potassium sorbate, sodium benzoate.

• **Sachets:** Maltodextrin, Yellow startwort (*Inula helenium* L.) root and rhizome dry extract, Noni (*Morinda citrifolia* L.) powdered juice, Corn poppy (*Papaver rhoeas* L.) petals dry extract, Ribwort plantain (*Plantago lanceolata* L.) leaves dry extract, Rosemary (*Rosmarinus officinalis* L.) leaves dry extract, Great valley gumweed (*Grindelia robusta* Nutt.) flowering tops dry extract, Common mallow (*Malva sylvestris* L.) flowers and leaves dry extract, Cowslip (*Primula veris* L.) flowers dry extract, Propolis (*Propolis*) extract standardized to 3% galangin, acidity regulator: citric acid; flavouring, Maidenhair fern (*Adiantum capillus-veneris* L.) plant dry extract, Round-leaf sundew (*Drosera rotundifolia* L.) aerial parts dry extract, Liquorice (*Glycyrrhiza glabra* L.) root dry extract, Curry bush (*Helichrysum italicum* Don.) flowering tops dry extract, Black horehound (*Ballota nigra* L.) flowering tops dry extract, sweetener: sucralose.
