

Gel Beauty

Dermocosmetic GEL
for external use

new formula
with
hyaluronic acid

Description

GEL BEAUTY IS A DERMOCOSMETIC GEL THAT CAN BE USED ALONG WITH OTHER GUNA PRODUCTS IN AMPOULES. IT IMPROVES THE ABSORPTION OF THE LATTER INTO THE DEEPEST LAYERS OF THE SKIN.

Gel Beauty has been expressly studied to be used together with various techniques [magnetophoresis (GUNAPHORESIS device), ionophoresis, iontophoresis, electroporation, ultrasound devices, etc]. Its special formulation improves the aesthetic results from the very first application.

Its active ingredients such as propanediol, moisturizing plant complex, acerola extract, capryloyl glycine, arginine, collagen hydrolyzate, sea salt, lysine, d-panthenol, sodium hyaluronate, pueraria lobata extract have an **anti-aging, antioxidant and tonic action**.

Gel Beauty is a basic product for any individual cosmetic application.

Gel Beauty does not induce any thermal effect. It helps to spread the signals emitted by the above mentioned devices.

The "airless" pumping system allows the gel to be kept in a nitrogen environment **without coming into contact with the external air**:

- the gel is not contaminated by the external environment;
- a better microbiological stability is guaranteed as it is preservative-free;
- if the gel is stored correctly, its organoleptic characteristics remain unchanged.

The pumping system is extremely accurate and avoids any product waste.

Gel Beauty can be used **alone or mixed with GUNA ampoules (Made®, Guna®-Collagen, Omeoformula® 1, Omeoformula® 2, Omeoformula® 3, Omeoformula® 4, Omeoformula® 5, MD-Matrix and MD-Tissue)** for:

- Skin aging
- Skin toning up
- Anti-wrinkles
- Skin bleaching
- Skin moisturizing.

Key words:

- 100% natural composition with hyaluronic acid, collagen, plant extracts, vitamins and minerals.
- Conductive gel formula
- "Airless System"
- Preservative-free

How to use

Apply a layer of gel to the desired area and start the application.

One dose of Gel Beauty, i.e. 1 ml approximately, can be used with 1 or more ampoules: mix them gently and then apply this cocktail to the skin.

For external use only. Avoid contact with eyes; in case of contact with eyes, rinse immediately with plenty of water for 2-3 minutes.
